

General Floor Care Tips

- Soak up liquid spills immediately as excessive use of water can cause permanent stains.
- Avoid wax, vinegar and “all-purpose” cleaners, since they dull the floor’s finish.
- Place mats or rugs near doorways and in high trafficked pathways to trap sand and grit.
- Do not move furniture or heavy objects across the floor - carry them or use gliding furniture pads instead.
- Use protective pads or caps on furniture
- Trim your pet’s claws to help avoid scratches on the floor.
- Avoid wearing high heels - they might dent the floor

Instructions

Varnished, painted, hardwaxed or oiled surfaces

1

Step 1: Preparations

Vacuum the floor carefully

2

Step 2: Regular wood floor cleaning

1. When your floor looks dirty, spray it with Wood Floor Cleaner to dissolve the dirt.
2. Wipe the floor clean using a Cleaning Pad on your Bona Mop.
3. Rinse the pad in water as it becomes soiled and wring it thoroughly before continuing to clean. Excessively soiled pads may be laundered.

For oiled floors, use instead Cleaner for Oiled Floors together with a Bona Cleaning Pad.

Step 3: Periodic maintenance

If the floor looks dull, scratched or shows other signs of wear, follow these steps to restore the beauty of the floor.

1. Vacuum the floor carefully. Clean it using Wood Floor Cleaner and a Bona Pad on your Bona Mop.

2. Apply Wood Floor Polish or Refresher with an Applicator Pad. Apply one even coating over the whole floor. Let dry for at least 2 hours.

For oiled floors

1. Clean the floor using Cleaner for oiled floors and a Cleaning Pad.

2. Dampen a Cleaning Pad with Oil Refresher.
Spray Oil Refresher onto the floor and distribute with the pad. Apply one even coat over the whole floor. Let dry for at least 2 hours.
